

RISK WARNING STATEMENT

1. IMPORTANT NOTICE

- 1.1 All clients should make every effort to read and understand this Risk Warning Statement available on our website. MX Global Sdn Bhd recommends that all clients to seek their own professional advice to assist in the comprehensive understanding of the terms set out in this document and your rights (including the extent of these) and obligations arising there from.

2. GENERAL

- 2.1 This Risk Warning Statement has been prepared by MX Global Sdn Bhd. We are regulated by the Securities Commission Malaysia (SC) for the operation of a digital asset exchange platform in accordance with the Guidelines on Recognized Markets issued by the SC.

You acknowledge that this Risk Warning Statement notice is not intended to be exhaustive and there may be other risk factors which you should take into account in prior to investing in digital assets. You should also note that the information contained in this Risk Warning Statement notice may become out-dated relatively quickly.

3. RISK DISCLOSURE

- 3.1 You should carefully consider whether such digital asset trading is suitable for you in light of your experience, objectives, risk appetite, financial resources and other relevant circumstances. In considering whether to trade or to authorise someone else to trade for you, you should be aware of the following:

- a) Digital asset transactions sent from your MX Global Wallet are irreversible. If you send digital asset to an incorrect address, or send the wrong amount, you will not get them back. MX Global cannot be held liable for executing a transaction if the instruction relates to an incorrect address or information.
- b) Before buying or selling digital asset, educate yourself about it. Buying or selling digital asset entails risks and could result in a complete loss of your funds. Please ensure that you fully understand the risks involved.
- c) Digital asset is or may not be not backed by any entity. Neither MX Global nor anyone else has an obligation to buy back your digital asset in the future.

- 3.2 Additionally, it is very important to note the following risks:

- a) Digital asset is not a legal tender and it is not backed by the Malaysia Government (the "Government"). Accounts and value balances are not subject to any Government backed deposit insurance or any other Government protections.
- b) Any loss resulting from the investors trading or investment through the recognized market is not covered by the Capital Market Compensation Fund.

- c) Legislative and regulatory changes or actions at the state or international level may adversely affect the use, transfer, exchange, and value of digital assets.
- d) Transactions in digital assets are generally irreversible, and, accordingly, losses due to fraudulent or accidental transactions may not be recoverable.
- e) Digital asset transactions shall be deemed to be made when recorded on a “block chain” ledger, which is not necessarily the date or time that you initiate the transaction.
- f) Digital asset is derived from the continued willingness of market participants to exchange fiat currency for digital asset, which may result in the potential for permanent and total loss of value, should the market for digital asset disappear.
- g) There is no assurance that a person who accepts a digital asset as payment today will continue to do so in the future.
- h) The volatility and unpredictability of the price of digital asset relative to fiat currency may result in significant loss or tax liability over a short period of time.
- i) The nature of digital asset may lead to an increased risk of fraud or cyber-attack.
- j) The nature of digital asset means that any technological difficulties experienced by a service provider may prevent the access or use of your digital asset.
- k) The abovementioned is not a closed list, there may be additional risks that we have not foreseen or identified here.
